## CROATIA Southern Dalmatian Islands from/to Trogir 2017

Guided Tour  
Guide cycling with group | 220 km/138 mi | 7 nights / 8 days

Our cycle tours in Southern Dalmatia, which is the smallest and most sparsely populated region of Croatia, will take us past unique little towns and the beautiful island countryside. These tours will let us experience the beautiful island of Korčula with its picturesquely situated old township, the island Vis – located far outside at the sea – and the beautiful lavender island of Hvar. Stroll around Hvar town with its mighty fortress and enjoy the calmness of the artist's town Stari Grad. Our tour guide explains us the towns of Trogir, Hvar, Stari Grad and Korčula, which are almost all protected under UNESCO's World Heritage list.

## TOUR ITINERARY

---

### **Day 1 (Sat) Trogir (Embarkation) – Hvar Island**

We suggest you arrive as early as possible in Trogir to give yourself some time to explore this lovely port town on your own. Reminiscent of Venice, you could spend hours exploring — but do make sure you find our boat at the pier before you start to wander! After check-in at 2 pm, our motorized boat will take you on the first short cruise from Trogir to Hvar Island. Stari Grad is the second largest settlement on the Island of Hvar and well known for its important harbour. Overnight stay in Stari Grad.

### **Day 2 (Sun) Island of Hvar and Vis (Cycle route approx. 20 km/12.5 mi + 22 km/15 mi)**

Today's first cycle tour leads us to the quaint harbors of Jelsa and Vrboska. Afterwards we return to Stari Grad, which has become a Mecca for artists and art lovers in the past few years. After Lunch on board a second cycle tour leads us along the almost traffic free pass road through nicely set small villages to the islands capital, Hvar, where we visit the magnificent Renaissance Square and enjoy the view from the Spanish Fortress, situated high above the city. We hop on board again and cross over to Vis Island. Overnight stay on Vis.

### **Day 3 (Mon) Vis Island (Cycle route approx. 32 km/20 mi.)**

Vis is the furthestmost island from mainland Croatia. A Greek colony called Issa has been on the island 2,300 years ago. Due to its strategic location it was a military zone until 1995 and prohibited for foreign tourists. Today we have the opportunity to explore the lovely island by bicycle. After cycling the boat takes us to the Island of Korčula. Overnight stay in Vela Luka.

### **Day 4 (Tues) Korčula Island (Cycle route approx. 48 km/30 mi.)**

Today we discover the island of Korčula by bicycle and enjoy our lunch break in one of the local restaurants. The calmness and remoteness of the vast vegetation and cypress gardens have given the shape to the probably most beautiful Dalmatian island. Our cycle tour leads us via the village of Blato, like Rome build on seven hills, along a pass road across Pupnat bay and finally to Korčula town, where we have time to take a walk through the wonderful old town with its narrow “fishbone like” alleys. We stay overnight in Korčula town.

### **Day 5 (Wed) Brač Island (Cycle route approx. 15 or 35 km/ 10 or 22 mi.)**

We cruise to the island of Brač, which is famous for its shining white marble which was also used for the White House and the Reichstag in Berlin. After a lunch break we start our bicycle tour from Sumartin to the lovely fishing village Povelja or to the picturesque town Pučišća. Overnight stay in Pučišća.

### **Day 6 (Thurs) Omiš - Split (Cycle route approx. 30-43 km/19-27 mi)**

After a morning crossing to Omiš we cycle through the valley of the Cetina River which is surrounded by steep rocks. After 12.5 mi./20 km we have the choice to take part on a four hours rafting tour on the Cetina River (not included in the tour price) and afterwards a small cycle tour of about 6.2 mi./ 10 km back to the boat – or to expand the cycling tour (no rafting) to 27 mi./43 km along small side roads and versatile landscapes until reaching Omiš and its pirate castles. In the afternoon our ship takes us to Split. The old town of Split, built adjoining the famous palace of the Roman Caesar Diocletian, is a world heritage site. Overnight stay in Split.

### **Day 7 (Fri) Šolta Island (Cycle route approx. 19 km/12 mi.)**

After crossing over to Stomorska on the island of Šolta we commence our last cycle tour. Walled fields, numerous olive groves, locust bean and fig trees line the roads. The herb smells of lavender and rosemary accompanies us along our tour through this island. We load the bikes onto the ship in Maslinica and enjoy our last crossing back to Trogir where, if time permits, we can take a tour of the old town which is a world heritage site. The last evening aboard our ship follows a nice tradition. While enjoying the communal dinner in a cosy atmosphere you will have the chance for a last get-together with your crew and your tour guides.

### **Day 8 (Sat) Disembark at Trogir**

After our last breakfast reminiscing about the week's adventures, we will begin our journey homeward or beyond. (9 am individual departure or extended stay in Dalmatia)

#### **Alterations:**

We reserve the right to make alterations to the planned route due to changing wind and weather conditions, and where required by organizational necessities.

## THE BOATS

---

### **Comfort Ship KAPETAN JURE (all cabins with shower/toilet)**

At 27 x 7 m the Kapetan Jure built in 2000, counts as one of the smallest ships of our Croatian fleet. The fine details etched into the wooden ship mirrors the seafaring affection of its captain. The spacious salon is decorated with shells, amphorae and showcases full of sailor's knots. At the bow a mermaid keeps watch for the safe navigation of the ship. The Kapetan Jure provides 15 cosy guest cabins each with air conditioning, shower and WC. A spacious living room suite on the quarterdeck and sundeck with cushioned sleeping mats play a part in contributing to the welcoming atmosphere.

### **Premium Ship ROMANTICA (all cabins with shower/toilet)**

At 32 x 7.6 m the Romantica was launched in 2007 and is a shapely two mast yacht which combines seafaring romance with the spirit of the age, style and comfort. One of the most important things for the captain is the smart appearance of his ship. Both salon and exterior have upscale facilities with a lot of fine details: the salon tables are decorated with noble intarsia, the corresponding benches are covered with precious, sun yellow leather. The large sundeck on the Romantica offers plenty of space to settle back and enjoy the sun.

### **Premium Ship SAN SNOVA (all cabins with shower/toilet)**

At 31 x 8 m the MS San Snova is our most modern wooden motor yacht launched in 2009 and was made exclusively for Islandhopping cruises. This ship, constructed entirely of oak, was built by the Serka family over three years in their own carpentry as a family project. The wooden boarded salon spreads a cosy atmosphere accentuated by the various outdoor lounging areas and the meadow of sunning mats on the top deck. The 14 spacious cabins are air conditioned and fitted with shower and toilet. The crew and the captain care for an immaculate appearance and a fun loving atmosphere on board the ship.

## GENERAL INFORMATION

---

### Meals

The cook that travels along is a member of the crew and prepares breakfast and two warm dishes a day which take into account the requirements of active cyclists. The ample breakfast comprises bread, butter, jam, cheese, sausages, coffee, and tea as well as some extras. For lunch, the cook will generally prepare a light meal and for dinner you can expect a great menu of several courses that often includes fish or seafood as its central dish. Please let us know beforehand if there are any foods you may or will not eat, and we will do our best to accommodate your wishes and to provide alternatives.

### Electricity, water and telephone on the ship

Electricity and water are available on board, of course, but within limits. All ships have a generator for 220V, which will however not work around the clock, e.g. to ensure your night's rest it will be switched off overnight.

The plugs are ordinary flat European plugs with two round pins of 4.8 mm in diameter.

The water tanks are large enough to provide sufficient cold and warm water for washing and showering for everyone, if it is used with consideration, i.e. if you turn it off while washing, and do not leave it on unneeded.

All countries have access to a local GSM 900 mobile telephone network that you can log into if your phone is GSM compatible.

### Arrival to tour start

- Taxi transfer from the airport of Split to the ship in Trogir (one way ca. 20 Euro per person)
- There are no direct flights from Ireland to Split, but we recommend you use [www.skyscanner.net](http://www.skyscanner.net) to find the most convenient route for you.
- There is an option to fly into Zadar Airport and from here get the airport bus into Zadar station, and a coach from Zadar to Trogir should take under 2 hours.
