## PIEDMONT - GENERAL INFORMATION

### THE TERRITORY

Piedmont borders with France in the west, with the Aosta Valley and Switzerland in the north, with Lombardy in the east, with Emilia-Romagna in the south-east and with Liguria in the south. It is divided into the provinces of Alessandria, Asti, Biella, Cuneo, Novara, Turin, Verbania and Vercelli; the regional capital is Turin. The name Piedmont derives from its dominant geographical characteristic, the fact that it is situated "at the foot of the mountains", the Alps. In Piedmont there are no Pre-alps. The territory is 44% mountainous, formed by an arch of mountains extending down to the Po Valley from the Alps and the Appennines. It is crossed by the confluents of the Po.

### CLIMATE

Piedmont is characterised by three types of climate. However, since it is not subject to maritime influences, the climate is generally considered continental, with pronounced thermal ranges. Winters are cold and dry; summers are cool in the hills and rather hot down in the plain.

For further information, consult the website [www.arpa.piemonte.it](http://www.arpa.piemonte.it)

### CLOTHING

We advise you to wear comfortable shoes and various layers of practical clothing to be prepared for sudden changes of climate and temperature; don't forget a rain gear, besides a light jacket for cold days and evenings. Sunglasses, a light-coloured hat, protective suntan cream and insect repellent sprays are important, especially in summer. Cycling trousers and gloves are advisable but not essential.

Helmet: Italian law does not require cyclists to wear a helmet, but we consider it important to wear one for safer travelling. During the tour you will have the chance to visit various religious institutions, such as churches and convents, where you must be appropriately dressed (covered shoulders, shoes or sandals, etc.). Also remember to bring a first aid kit with you.

### FOOD AND SHOPS

In Piedmont you will discover that the regional cuisine is full of tasty dishes starting from the first courses (agnolotti, cold cuts, soups and rice) to main meat dishes with boiled meat, accompanied by seasonal vegetables and local specialities like Alba truffles, mushrooms, etc., excellent cheeses, to end with desserts such as Krumiri biscuits. One famous dish is "Bagna Cauda", a hot dip for raw vegetables made of oil, garlic and anchovies. Another is cheese fondue. The region is also famous for its excellent wine production, for example Barolo, Barbera, Dolcetto, Nebbiolo, Moscato and Brachetto.

In hotels, an international breakfast with a varied buffet is usually served. However, the typical Italian breakfast served in bars is just a cup of coffee and a cream-filled or jam-filled croissant.
