GENERAL INFORMATION

Route Guide and Maps

You will be provided with our Route Guide which includes detailed route instructions along with interesting information on landscapes, towns and villages, monuments, alternative route suggestions, timetables for local trains and buses, tips on eating and drinking, an exhaustive gastronomic dictionary and a host of other useful information and suggestions to keep cyclists occupied. Routes are carefully described so no time is wasted on unnecessary deviations. Maps of the area are also provided to support the Route Guide.

Trips that include more than one night in the same destination include optional round rides of differing lengths for these free days so cyclists will never be at a loose end.

Weather and Climate

Many people are put off coming to Spain on a cycling holiday due to the weather. They think it's going to be just too hot – and they are probably right! During the summer months Spain is one of the hottest and driest countries in Europe with temperatures climbing up to 40°C – 105°F or even more - too much for your average cyclist.

However, the coast and mountains of Asturias and Cantabria are the exception to the rule. Summer months are a lot milder and not as dry as in the rest of Spain and mean that cycling is a pleasure and the landscape is kept fresh and green. Our tour program here begins in spring and runs right through to autumn.

TRAVEL INFORMATION

Best arrival points:

Airports - Bilbao or Santander

Ferry ports - Bilbao or Santander

Bus / train stations - Bilbao or Santander

By Air

Travellers on the routes of Asturias and Cantabria and also the Rioja route generally arrive at Santander or Bilbao Airport where they are met by our pick up service. Some companies fly directly to Santander or Bilbao from many European airports.

It is often possible to take connecting flights through Spanish airports such as Madrid or Barcelona or through other European cities. Our nearest airport is Santander connecting with Madrid and Barcelona, although flights are not so frequent. RyanAir has now opened a new route from London, Stansted to Santander Airport, actually closer to our starting point in Santillana del Mar.

Please note that we do not get involved with travel arrangements as we feel that the customer will get the best possible deal either by searching the Internet or asking the local travel agent to check all possibilities.

By Ferry

Another alternative for these routes is a mini-cruise on the ferry. We can pick you up from the Santander or Bilbao ferry ports. Most companies will allow you to transport your own bicycle - check with individual companies for their policy on this.

Trains & Buses

If you are travelling within Spain, there is an excellent network of road transport. The Spanish Intercity train service is called Renfe. The local train service along the coast of the Basque Country, Cantabria & Asturias is called FEVE. The major coach companies, depending on where you are travelling, are Alsa and Continental Auto.
